## BOOTHS ATTRACTIVE

Many Useful and Ornamental Articles Will Be for Sale—To Be Thursday and Friday.

The ladies of the First Methodist church are planning for the best bazaar ever held in the church. The articles for sale, in quality and quantity, have already been secured. The booths are already up and will be made as attractive as possible and ready for business Thursday and Friday of this week.

The useful article booth will be in charge of Mesdames Nixon, Lawrence and DeArmond. They will have aprons, quilts, comforts and handy articles for all household purposes.

The fancy work booth promises to be of special interest this year because of the fine lot of work promised. Mesdames Braniger, Wadley, Baker and VanSteenbergh will have charge of the hand painted china.

Candy, the most of it and the finest assortment ever offered at a Methodist bazaar, pop corn and cracker-jack will be on sale by Mrs. Emmett Scott and Miss Ruby Curdutt.

A tea garden will be a booth that you will want to visit. Ice cream and tea will be served by Mrs. Corwin and Miss Brownie Toel. Miss May Corwin and Mrs. George Bellows will have on exhibition some interesting curios gathered on their trip abroad. Come and see these and hear the story of their origin. This is a courtesy shown anyone who wishes to see. The new Kalamazoo vegetable parchment will be demonstrated and sold at this booth.

Mrs. Jones, who lectured on domestic science last summer at the Chautauqua, recommended them very highly. This paper is a vegetable compound, waterproof, germproof, sanitary, antiseptic. Don't miss this opportunity. Shelf paper, dishrag paper, ice blanket, jelly protectors, etc., will be for sale.

A chicken pie dinner Thursday and a roast meat dinner Friday, served from 11 to 2 o'clock; supper Thursday and an oyster stew Friday evening, served from 5:30 to 7 o'clock, 25 cents a meal. A 50-cent meal any time for just half what you pay anywhere else.

## SHE WILL HAVE A HOME.

Appeal for Little Girl Without a Home Has Not Been in Vain—She Has Eight Good Offers.

The little 9-year-old girl, who has a temporary home with Mrs. Martha Denny at 133 South Buchanan street, has at this time nine offers of a home, all of them good, and she would be well cared for and well educated. The little girl has not yet discovered the why of so many telephone calls at the house since the story of her need came out, for she has not seen the papers, and she does not yet quite understand why so many have called to see her. She just takes them as a matter of course, as she has everything else, so far, but it is not hard to see that she will be entirely unwilling to leave her present home with her teacher.

It will soon be time for her to make her choice of a home, and whichever one she chooses will be a good place for a little girl to be, in any of the nine that are now offered.

## About Clearmont.

The following is from the St. Joseph Gazette:

The efforts of the able as well as popular head of the excellent but not too severely disciplined public school of the charming little town of Clearmont to get the sippers of knowledge to gather 'round the fount of wisdom on time have our earnest as well as experienced attention. Far be it from us, of course, to lead any to infer that the profession of the pedagogue has ever been our honored calling. We do lay claim, however, to having been one of those taught—or labored with. So we realize the sad need of having every youthful disciple of Socrates get a move on in order that the cogitations of the roomful of embryo and also perfectly orderly scholars may not be diverted by a late arrival to things not in the textbooks. For instance, we well recall how impossible it was once upon a time for us to continue wrestling with a little fragment of mensuration when Bill Hawkins of our school came into the room ten minutes late, and with a streak of strawberry jam across his countenance, the while we knew that our own little lunch, carefully garnered against the pangs of noontime hunger and placed tenderly in the boys' end of the school house hall, contained the only strawberry jam to be found in the village. Yes, tardy pupils cause the minds of the earlier comers to wander to subjects not scholastic, and sometimes to matters provocative of fierce whisperings, behind geographies, covertly shaken fists, and general thickening of the idea shooting atmosphere. We hope the Clearmont kids will be on time hereafter.

A Lubin Feature in Two Parts

A beautiful story of true, loving hearts full of pathos, but not a touch of sadness. John Barbour and his sweet wife, Nell, being well-to-do, did not like seeing Pa and Ma Barbour living in a humble cottage in the country with old traps while they were enjoying a luxurious mansion. So they dismantle the old folks' home and send the sticks to the second-hand shop. Pa and Ma tried to enjoy the new atmosphere, but it was not the old home and they were caught by stealth buying the old furniture back. John and Nell saw their mistake and, giving in, restored the village cottage just as before, with only one addition, a telephone.

AGAINST YOUNG MAN OF CONCEPTION, FRED LITTEN.

## WAS ARRESTED TODAY

Is a Young Married Man and His Wife Is Sick in Bed—Bond Fixed at \$500, and Unable to Give It.

Fred Litten of Conception was arrested Tuesday by Sheriff Ed Wallace on a charge of forging a check. He was brought to Maryville and will probably be unable to give bond.

Litten is charged with forging the name of Ed Bell of Alanthus to a check for \$16.50, drawn on the Farmers and Mechanics bank of Stanberry. It is said that he spent part of the money for some wet goods.

Litten is a young man, is married and has one child. He has been working at the railroad shops at Conception Junction, but the past several days has been at home as his wife is very sick. He has been a resident of that place for the past year or more.

It is only fair to Huerta to state that none of the rumors to the effect that he will resign have come from him.

Missouri has contributed nobly toward bringing down the high cost of living and not the least of these contributions is twenty-eight million corn cobs pipes. The Missouri meerschaum is no small factor in the nation's economies.

President Madero was murdered by friends of Huerta who became provisional president of Mexico. Gen. Villa acting under the constitutionalist leader Carranza captured Juarez a few days ago and stood the friends of Huerta, who had attempted to defend the place in the name of the government, by the side of graves dug for them, had them shot and they fell into those graves. We have determined not to recognize Huerta because he is a butcher. If Huerta falls and Carranza wins what will we do with him? Is a man who has defenseless prisoners of war stood up and shot by scores anything less than a butcher?

**TIME FOR VACATION.**  
The resolution introduced in congress a few days ago by Representative Walter Hensley of Missouri, asking for a vacation in the matter of war preparations by the leading countries of the world should be adopted.

Neither England, Germany, France nor the United States have been in danger in recent years, and there is not now any serious menace to either of them, and yet the craze for more battleships continues to grow and the rivalry for the greatest navy ends each year in the enlargement of each of the individual forces without much comparative change.

A continuance of the Hobson program in all these countries can only end in national bankruptcy and the levying of indefensible burdens upon the taxpayers.

It is time to call a halt and take a vacation. It can only be done perhaps by agreement among the nations. When the navies are doubled the com-

**A Surprise Party.**  
A birthday surprise party was given at the home of Mr. and Mrs. John McClellan, on November 15, in honor of their son, Joseph, who celebrated his sixteenth birthday. The evening was spent in playing various games and music, after which a dainty three-course luncheon was served by Mrs. McClellan, who was assisted by her daughter, Miss Maud, and Mrs. Beste. The guests then departed for their homes, reporting a very pleasant time, and wishing Mr. Joseph many more happy birthdays. ## The Arts and Crafts Meeting.

The Arts and Crafts department of the Twentieth Century club spent a very pleasant and profitable afternoon Monday with Mrs. J. F. Colby. The study was lace crochet and embroidery, led by Miss Marie Brink and Miss Rena Sturm. Mrs. George P. Bellows gave the first number on the program, a paper on the history of crochet. Mrs. Bellows had several beautiful pieces of foreign crochet work. Mrs. E. G. Grear read a paper on Modern Household Embroideries, and had a piece of each kind to illustrate the many kinds of embroidery that are being done by the people of our city. Miss May Grear also had several lovely pieces on exhibition, one of which had been made by a woman over 97 years of age. She also had a piece of eyelet work that had been her grandmother's. After the program Miss Sturm and Miss Brink passed each guest a collar to embroider, which had been stamped ready for work. After a lesson in this a lesson in crochet was given and each member learned a new and beautiful crochet pattern. Mrs. T. L. Wadley and her aunt, Mrs. M. C. Schaff of Los Angeles, Cal., were the guests.

## They Will Be Workers.

The Queen Esther Circle of the First Methodist Episcopal church met at the home of Fay Herndon, on West First street, Saturday afternoon. The subject of the program was "The Frontier," and was as follows:

Devotions—Miss Barrows.  
Reading, "Another Chance"—Dorothy DeMotte.  
"Christmas in a Frontier Home"—Josephine Wilderman.  
Piano solo—Vijune Colden.  
"When the Girls Took Charge"—Greta Kemp.

During the business meeting plans were made for sending a Christmas box to the children of some home on the frontier. Vijune Colden, secretary of supplies will have charge of this. The mite boxes for the year were distributed by the mite box secretary.

Those present were Josephine Wilderman, Dorothy DeMotte, Helop Davis, Hazel Little, Ella Strader, Loma Bowers, Vijune Colden, Della Hook, Greta Kemp, Mabel Curnutt, Doris Pinnell, Mattie Clayton, Marjorie White, Ida Sabel, Mildred Bellows, Kathleen Wells, Miss Barrows and Fay Herndon. Miss Georgia Crawford was the guest of the afternoon. Queen Esther Circle was organized only two weeks ago.

## The Wilson Wedding Gifts.

Poor Pricer, and Mrs. Wilson! Over half of the senators in the United States senate are dead because they are not invited to Jessie's wedding, and they say they are not going to help buy the bride a present when they are not invited. But all the official people cannot be invited. There is not room. The Roosevelts tried to invite everybody to Alice's wedding, and 1,500 were asked, it is said, and those who attended still remember the awful crush and inconvenience and discomfort they went through. Fewer than fifty guests were present at the wedding of President Cleveland and Mrs. Grover Cleveland, and less than three hundred were asked to Nellie Grant's wedding. Jessie Wilson will be the first daughter of a Democratic president to wed in the White House since the days of Letitia Taylor, so this wedding is of more than usual interest in Democratic circles.

But Miss Genevieve Clark may be

## BREAKS A COLD IN A FEW HOURS—PAPE'S

First Dose of Pape's Cold Compound Relieves All the Grippe Misery—Contains no Quinine.

Don't stay puffed-up! Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken will end grippe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages; stops nasty discharge or nose running; relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

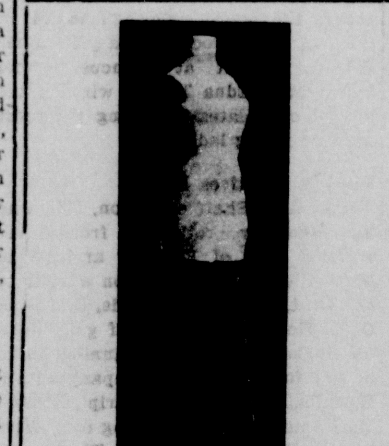

"Pape's Cold Compound" is the quickest, surest relief known and costs only 25 cents at drug stores. It acts without assistance, tastes nice, and causes no inconvenience. Don't accept a substitute.—Advertisement.

able to relieve this threatening social attitude of the senate toward the White House, by a luncheon she is to give Wednesday afternoon at the Congressional club for Miss Wilson, the bride-to-be, and the guests are to include all the girls of the house and senate, 175 of them. This will enable all the girls to meet Miss Wilson, although they will not get to see her at her wedding.

Miss Clark's luncheon will be the most interesting social event of the season, excepting the wedding itself, considering guests and all. Dorothy Harvey of New York, daughter of Colonel George Harvey, is coming to Washington this Tuesday evening for the luncheon. Miss Clark's father, Speaker Champ Clark, says this is to be Genevieve's "golden year." While she is not going to make her debut in the usual way (she is only 17) she is making her bow in the most propitious manner possible. She was first entrusted with buying a gift for the bride-elect for the house of representatives, who contributed over \$2,000 for it. The selection she made in New York, at Tiffany's, is a diamond pendant and chain. The pendant is pear-shaped. In the center is a canary diamond weighing six and one-half carats. It is surrounded by eighty-five smaller diamonds arranged in a pear shape, and is suspended from the neck chain in which smaller diamonds are set.

Gifts for the White House bride are pouring in, and Jessie will have to arrange for her presents elsewhere than in the White House if they continue to come in upon her the last days before the wedding as they have this week. The room set aside for the gifts already is pretty well filled and yet nearly half of those who have selected gifts must await the engraving by the jeweler.

The vase to be given by the French ambassador and M. J. Jersaud took

the grand prize at the Paris exposition and cost about \$1,400.

A dinner set of more than a hundred pieces and costing \$8,000 is on exhibition at a Washington jeweler's and will later grace the table of the White House bride. It is in Georgian style, with heavy festoons of flowers and richly engraved. One of the hand-somest gifts is a vase of 14-karat gold, beautifully chased.

A terrapin set has a generous chafing dish of silver and several other pieces necessary to preparing the delicacy and all stand upon a heavy silver tray. The top of the chafing dish is ornamented with a terrapin, and the same creature, beautifully carved in ivory, forms the handle.

The tea set, which the senators probably will decide upon at once, has five pieces, a teapot, a hot water pot, waste bowl, sugar bowl and cream pitcher, the entire service being on a large silver tray.

Among the ambassadors who have sent gifts are the French, the German, the Italian, who sent four heavy silver candlesticks, and the Russian ambassador and Mme. Bakunetoff, who sent an amber umbrella handle, richly jeweled. A tortoise shell and silver jewel case has been sent by the minister of Uruguay and Senora de Pena. The Misses de Pena, who are invited, will send separate gifts, and Senor don Algara, charge d'affaires for Mexico, will follow the decision made by the bachelors of the corps who have been honored with an invitation and will send a large basket of flowers. The Bolivian minister and Senora de Nealderon will send flowers, and most of the other South and Central American diplomats will do likewise.

A gift that makes small show among the glistening array of large and beautiful things, but which has found a snug place in the heart of Miss Jessie Wilson, is a knitted bead purse sent to her by her little cousin, Elizabeth Wilson, daughter of Mr. and Mrs. Alfred Wilson. Elizabeth is only 4 years old and has labored steadily at her task that she might have the beads strung and the purse made before the day of

the wedding which she will attend.

It is said that a loving tribute has been sent by the mountain women of the Carolinas and other southern states and that their weaving will form the furnishings for one of the rooms in the home of Mr. and Mrs. Sayre, as they do in one of the chambers at the White House.

Mr. and Mrs. W. H. Campston went to Kansas City Tuesday morning to visit Mrs. Campston's sister, Mrs. W. P. Baker.

Miss Dorothy Terhune left Tuesday for her home in Clinton, Ia., after a several weeks' visit here with her aunt, Mrs. Eunice Graves, and Miss Martha Koch and other friends.

A social will be given in the basement of St. Patrick's church this coming Wednesday evening, November 19.

Joseph H. Alexander, Will Whitman and Harry Gonsler will leave this evening for a trip in Montana to look over the country.

## Thanksgiving Dinner

Out of the goodness of their hearts, so that everybody can attend church Thanksgiving Day without thought of the kitchen to mar their happiness, the Baptist Ladies will have a fine Thanksgiving dinner awaiting them in the church parlors when the morning services are over. Menu later.

## NEW CONGRESS IS ORGANIZED

Huerta Says He is Ready to Resist Intervention.

### U. S. MAY START BLOCKADE

"We Will Protect Our Citizens and Not Wait for Washington to Act," Says Texas Governor as He Hears of Mexican Threats.

Mexico City, Nov. 18.—Organization of President Huerta's new congress was completed when enough senators were gathered to form a quorum in the upper house. There is nothing to indicate that the formal opening of congress next Thursday will be postponed. President Huerta talked informally to the members of his staff and a few personal friends regarding the possibilities of intervention by the United States. He intimated that he would be ready to resist such a step. The opinion is expressed in various circles here that the United States will soon start a blockade of Mexican ports. Rumor has it that President Wilson would be content with such an action and might even permit the embassy to remain in Mexico City until an open rupture occurred.

#### Won't Wait for Washington.

Austin, Tex., Nov. 18.—"In the event Mexicans start any trouble, we will protect our citizens and not wait for Washington to act," declared Governor O. B. Colquitt, after a conference with Adjutant General Hutchings. While no official statement was given out, it became known that the Texas national guard is in readiness to answer quickly any call that might be made.

The conference was the outcome of a threat by Mexicans to make Texas "answer to the whole Mexican people" unless mercy was shown Mexican ammunition smugglers charged with murder.

Governor Colquitt did not apprise Washington of the events. He said that in a recent outbreak along the Mexican border federal troops did not act until the Texas rangers had been called out.

#### SUNSET STRIKE SETTLED

Company Will Meet Federated Committee of Four Unions.

Houston, Tex., Nov. 18.—The strike of operating employees of the Southern Pacific lines in Texas and Louisiana was ended when the railroad yielded to demands of the men to meet a federated committee of the four unions in the controversy. The men were ordered to resume work immediately.

Within thirty minutes after the announcement was made that the strike had been ended, wheels, which had been idle, began to turn in the Houston railroad yards.

During the strike mail piled up at many towns and supplies of merchandise ran low in towns which depended exclusively on the Southern Pacific for service.

Orders have been issued for a general resumption of train service on old schedules and a renewal of general activities on the Southern Pacific lines, effective at once.

#### TEXTILE FIREMEN STRIKE

Thousands of Operatives Thrown Out of Work at Lawrence.

Lawrence, Mass., Nov. 18.—Between 3,000 and 4,000 operatives were thrown out of work when the strike of firemen in the textile mills caused the stoppage of some of the machinery because of the lack of power. According to union officials, 350 of the firemen have quit work. The union asks for an eight-hour day at the same pay now received for a twelve-hour day.

#### INDIANS DEFEY MARSHAL

Fifteen Hundred Navajos Rally to Support of Renegades.

Santa Fe, N. M., Nov. 18.—Fifteen hundred Navajo Indians have rallied in defense of renegades, and are reported in armed encampment on beautiful mountain, thirty-five miles south-west of the Ship Rock agency, defying United States Marshal Hudspeeth to take prisoner the renegades who are wanted on federal warrants, charging horse stealing, assault and bigamy.

Two troops of cavalry have been asked for by the marshal.

#### Socialist Howled Down by Militants.

Sheffield, Eng., Nov. 18.—A wild suffragette disturbance occurred here. Philip Snowden, Socialist member of parliament for Blackburn, attempted to address a "no conscription" meeting arranged by the labor party, but was howled down by suffragettes. Policemen took a hand and in the scrimmage were attacked by male sympathizers with the women. Some of the policemen were kicked and badly bruised. The meeting was abandoned.

#### Striker Stabbed to Death.

Victoria, Tex., Nov. 18.—Strikers returning to work on the Southern Pacific railroad here clashed with a strike breaking crew whose places they took on a train that had just arrived from Houston. George Gillig, a union engineer, was stabbed to death. The man charged with the stabbing gave his name as E. D. Quinn of Houston.

Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running nose or imperfect hearing, and when the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; also cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous lining. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

## Awarded "First Position" at the World's Greatest Automobile Show

THE extraordinary supremacy of the 1914 Overland has been officially recognized by the American Motor Car Manufacturers' Association.

This organization has awarded the Willys-Overland Company the position of honor at the great National 1914 Automobile Show which opens in the Grand Central Palace, New York City, on January 3d.

Do you know that the people of over 50 nations are wiring, writing and cabling to Toledo for Overlands?

Do you know that in response to their repeated requests and urgent demands we are shipping from 50 to 60 carloads a day—which means 200 automobiles every day in the week?

Do you know that the 1914 Overland is today the most sought after car of its type in the entire civilized world?

Even in Detroit, the automobile hub of the world, there are more Overlands being sold than any other car of this type.

The Overland has made, established and won for Toledo WITH ITS INDIVIDUAL PLANTS ALONE, the title of the second greatest automobile city in the world.

Detroit, alone, leads and yet the 1914 Overland is outselling, even in Detroit, every competing car.

The Overland factories average 50 shipments to the average maker's one. The Overland factories will build 50,000 cars for 1914. This is more cars than all the factories of France; three times as many as all the factories of Germany and far more than the combined factories of Italy, Holland, Russia and Sweden.

Has it ever occurred to you that there must be some substantial reason for such unparalleled success? There is, and here it is.

NO OTHER FACTORY IN THE WORLD CAN BUILD A CAR THE EQUAL OF THE 1914 OVERLAND FOR LESS THAN \$1200.

Our price—\$950.

That's the reason and the answer.

Now here are the facts.

The 1914 value is INCREASED but the 1914 price is DECREASED!

The motor is LARGER—but the price is LOWER.

The wheelbase is LONGER—but the price is SHORTER.

The tires are LARGER—but the price is LOWER.

The new car has ELECTRIC LIGHTS THROUGHOUT—even under the dash—but the price is LOWER.

It is magnificently finished in dark Brewster green, with running boards and wheels to match, trimmed in polished nickel and aluminum—but the price is LOWER.

Then there is a larger tonneau, a jeweled Stewart Speedometer—a larger steering wheel, and deeper upholstery—but the price is LOWER.

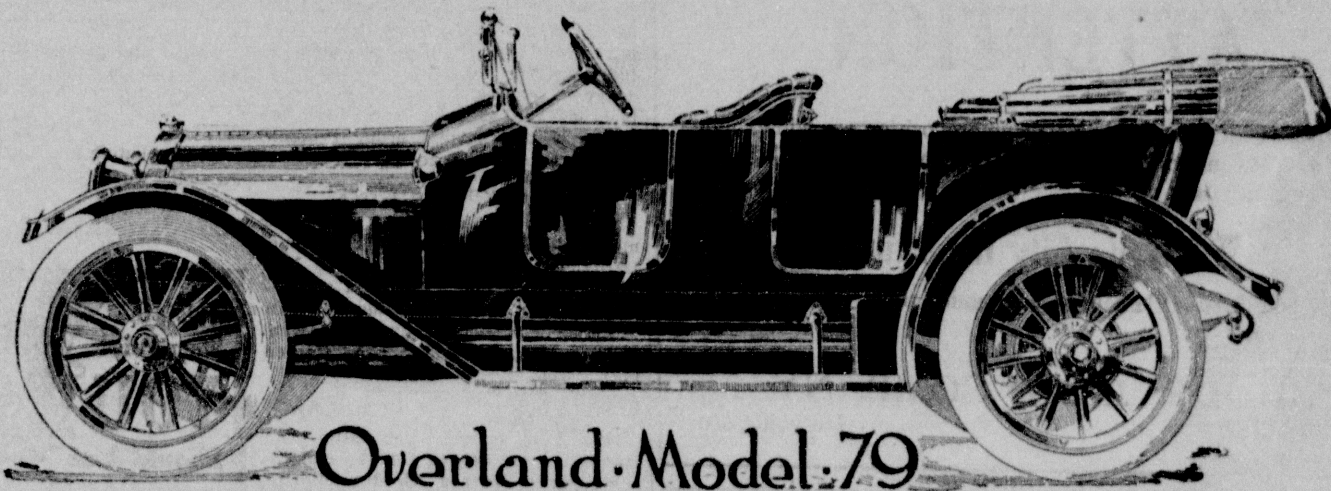

Here you have the world's record automobile value—at a record breaking price.

There is an Overland dealer near you. See him today.

#### As He Got It.

A newly married lady was being interviewed by the reporter of the local paper just after the ceremony.

"And after the honeymoon where do you intend to settle down?" was his final question.

"At the old manse," said the bride, as she hurried away.

The reporter thought it sounded a bit familiar, but he decided to use it, so when it appeared in print the re-

port finished up: "After the honeymoon the happy couple intend to live at the old manse."

# A TIMELY WARNING to Housewives Beware of a Steel Range Peddler

**The Approach---** A sleek looking man, with a team of mules or horses attached to a wagon, may drive up to your house and attempt to unload and place in your kitchen a range. He may, if you allow him, proceed to explain in a very smooth manner, that this recently arrived range is made of steel and far superior to all other ranges on the market, and that for eighty dollars you may avail yourself of the opportunity of owning this very superior article in the stove line. If you do not happen to have the money in your hand you may take stove on approval, and, if satisfactory, pay for it when convenient; however, "as a mere formality," you and your husband should sign two innocent-looking pieces of paper.

**The Contract---** The range, as it stands alongside of the one that has done you such faithful service, appears to be a great improvement, but beware again of those two innocent-looking pieces of paper. Examine carefully on both sides and see if one does not read something like this:

## READS SOMETHING LIKE THIS

State of.....County. This memorandum of agreement made and entered into this.....A. D. 19..... between.....of the first part, and.....of the second part, witnesseth: That the.....range, No.....and delivered the same in good has this day sold to the parties of the second part one.....bearing even date order and in consideration of the same the parties of the second part have caused to be executed their promissory note, bearing even date herewith, for the sum of eighty dollars payable to the order of.....without discount or offset and due on the.....day of.....19..... Now be it understood that the.....Range Co. warrant said range to bake, boil and do all kinds of cooking in a good, workable manner, and agree to furnish free of charge any parts that may with ordinary use get out of repair sufficiently to injure the working of said range during the period of twelve months from date of this writing, provided that the above note is PAID WHEN DUE and present, and that the parties of the second part furnish such fuel as is necessary to perfect operation. It is further agreed that the range is not transferable until paid for, and receipts, discounts, or offsets will not be accepted against the above note. This is the only agreement or stipulation recognized in the purchase and sale of said range, and no alteration of above conditions, or erasure by salesman, is authorized, or will be recognized by said company. (Signed, in duplicate),

Witness.....

**The Result---** Take it for granted that you are pleased with the appearance of the range and the terms of the purchase and that you and your husband sign the two pieces of paper. Where do you stand then? You have signed a promissory note for \$80, without discount or offset, with interest at six per cent from date if not paid when due or when presented. You have waived your rights to all exemptions allowed you by law. You have signed an iron-bound contract from which there is no escape in law. You do not legally own the range until the note is paid in full. The Company can take the range away without returning the part payment you have made. It is no legal excuse you did not know what you were signing. The Company can sue you upon note, recover judgment, and levy against your household goods.

## The Inducement

He may tell you that your old stove will be taken in part payment.  
He may tell you that what you are signing is only a receipt.  
He may tell you that his steel range is far superior to the range sold by your local dealer.  
He may tell you that he will take part of the price in his board and that he will allow a certain discount if monthly payments are made or that he will allow so much for every day you ride with him on his wagon.

## The Contract

"No old stoves taken in payment." Read it carefully and see if it is not a note.  
Try it yourself without signing papers, or inquire of those who have tried one.  
Receipts, discounts and offsets, will not be accepted against the above note, and no alteration of above conditions or erasures by salesman is authorized or will be recognized by said company, neither will we recognize any transaction outside of the guarantee which is signed with facsimile of company's signature, nor any erasures, alterations or additions to this printed condition."

**The Advice---** Don't trade with a total stranger. Don't sign any paper until you have tried the range for thirty days. Don't let him tap your old stove with a hammer to show how frail it is. Remember that all stoves will need repairs, and that the post office address of the peddler is subject to change without notice. Consult your lawyer before signing any paper offered you for signature by a peddler. It will be cheaper than consulting him after you have signed.

**The Conclusion---** Your home dealer is a responsible man, can sell you a better range at a lower price, can always be found to make his guarantee good, can furnish you repairs at any time and in short is the proper person now, as he always has been, from whom to purchase a range.

## SUFFRAGISTS AT WHITE HOUSE

Sixty-five From New Jersey Call Upon President.

## COME TO PLEAD FOR "CAUSE"

Want Executive to Mention It in Annual Message to Congress—Wilson Says Appointment of Woman Suffrage Committee Is Being Considered.

Washington, Nov. 18.—Sixty-five suffragists from New Jersey visited the executive offices at the White House and, though they had no previous engagement, were promptly received by President Wilson.

"We came to ask you to make suffrage a national question," Mrs. E. F. Peckert, head of the delegation, told the president, "and we would like you to include in your annual message support for the constitutional amendment now pending to grant to women the right to vote. We would like also if you would use your efforts to have the committee on rules in the house appoint a woman suffrage committee to push consideration of the amendment in the senate and on which we would like to see an early vote."

"I was just talking the other day," returned the president, "with some gentlemen from the house about the appointment of a committee and we have the matter under consideration."

"Oh, thank you," chorused the women. The suffragists met with opposition when they visited the capitol and imported Senator Martine to champion their cause in the senate. The New Jersey senator, in reply to a direct question by one of the suffragists, declared that he did not favor the proposed enfranchisement of women and that he probably would vote against the proposed amendment if it should come to an early issue in congress.

After their reception by Senator Martine at the senate, they went to the house and of the capitol and presented petitions and arguments to New Jersey members of the house.

### SHE WILL HAVE A HOME.

Appeal for Little Girl Without a Home Has Not Been in Vain—She Has Eight Good Offers.

The little 9-year-old girl, who has a temporary home with Mrs. Martha Denny at 133 South Buchanan street, has at this time nine offers of a home, all of them good, and she would be well cared for and well educated. The little girl has not yet discovered the why of so many telephone calls at the house since the story of her need came out, for she has not seen the papers, and she does not yet quite understand why so many have called to see her. She just takes them as a matter of course, as she has everything else, so far, but it is not hard to see that she will be entirely unwilling to leave her present home with her teacher.

It will soon be time for her to make her choice of a home, and whichever one she chooses will be a good place for a little girl to be, in any of the nine that are now offered.

### About Clearmont.

The following is from the St. Joseph Gazette:

The efforts of the able as well as popular head of the excellent but not too severely disciplined public school of the charming little town of Clearmont to get the sippers of knowledge to gather 'round the fount of wisdom on time have our earnest as well as experienced attention. Far be it from us, of course, to lead any to infer that the profession of the pedagogy has ever been our honored calling. We do lay claim, however, to having been one of those taught—or labored with. So we realize the need and need of having every youthful disciple of Socrates get a move on in order that the cogitations of the roomful of embryo and also perfectly orderly scholars may not be diverted by a late arrival to things not in the textbooks. For instance, we well recall how impossible it was once upon a time for us to continue wrestling with a little fragment of mensuration when Bill Hawkins of our school came into the room ten minutes late, and with a streak of strawberry jam across his countenance, the while we knew that our own little lunch, carefully garnered against the pangs of noontime hunger and placed tenderly in the boys' end of the school house hall, contained the only strawberry jam to be found in the village. Yes, tardy pupils cause the minds of the earlier comers to wander to subjects not scholastic, and sometimes to matters provocative of fierce whisperings, behind geographies, covertly shaken fists, and general thickening of the idea shooting atmosphere. We hope the Clearmont kids will be on time hereafter.

Housekeeping on South Laura Street. Mr. and Mrs. Clarence Lierly have leased the Carpenter cottage on South Laura street and are housekeeping. ## REVIVAL STARTED

AT THE BUCHANAN STREET METHODIST CHURCH MONDAY.

## DR. U. G. FOOTE IS HERE

Is an Able Preacher and is Pastor of the Largest Methodist Church in Louisville, Ky.

The Rev. Dr. U. G. Foote, who is to conduct a series of revival meetings for the next two weeks at the Buchanan Street Methodist church, arrived yesterday evening over the Wabash. As he had been on the train for nearly twenty-four hours, the service was conducted by the pastor, who preached on "Broad is the Way." Dr. Foote will preach this evening. The theme will be "Saving a Soul."

Dr. Foote is the pastor of the largest Methodist congregation in Louisville, Ky. The building was erected as a Jewish synagogue at a cost of \$185,000, and bought from them by two Methodist congregations who equipped it for social service, as it was located in a very congested center of population. The church maintains a byecorn course of its own, and every Wednesday serves a 10-cent supper in order to meet the convenience of its members, who use the church as a social center. It is not, however, an institutional church, as it is not located in a part of the city where such work is needed.

While pastor of the Francis Street Methodist church in St. Joseph, Dr. Foote led the fight against chop suey joints and vice restaurants and succeeded in closing the most objectionable of them. The services this evening will begin at 7:30 p. m.

It is only fair to Huerta to state that none of the rumors to the effect that he will resign have come from him.

Missouri has contributed nobly toward bringing down the high cost of living and not the least of these contributions is twenty-eight million corn cobs pipes. The Missouri meerschaum is no small factor in the nation's economies.

President Madero was murdered by friends of Huerta who became provisional president of Mexico. Gen. Villa acting under the constitutional leader Carranza captured Juarez a few days ago and stood the friends of Huerta, who had attempted to defend the place in the name of the government, by the side of graves dug for them, had them shot and they fell into those graves. We have determined not to recognize Huerta because he is a butcher. If Huerta falls and Carranza wins what will we do with him? Is a man who has defenseless prisoners of war stood up and shot by scores anything less than a butcher?

#### TIME FOR VACATION.

The resolution introduced in congress a few days ago by Representative Walter Hensley of Missouri, asking for a vacation in the matter of war preparations by the leading countries of the world should be adopted.

Neither England, Germany, France nor the United States have been in danger in recent years, and there is not now any serious menace to either of them, and yet the craze for more battleships continues to grow and the rivalry for the greatest navy ends each year in the enlargement of each of the individual forces without much comparative change.

A continuance of the Hobson program in all these countries can only end in national bankruptcy and the levying of indefensible burdens upon the taxpayers.

It is time to call a halt and take a vacation. It can only be done perhaps by agreement among the nations. When the navies are doubled the com-

The evening was spent in playing various games and music, after which a dainty three-course luncheon was served by Mrs. McClellan, who was assisted by her daughter, Miss Maud, and Mrs. Beste. #### The Arts and Crafts Meeting.

The Arts and Crafts department of the Twentieth Century club spent a very pleasant and profitable afternoon Monday with Mrs. J. F. Colby. The study was lace crochet and embroidery, led by Miss Marie Brink and Miss Rena Sturm. Mrs. George P. Bellows gave the first number on the program, a paper on the history of crochet. Mrs. Bellows had several beautiful pieces of foreign crochet work. Mrs. E. G. O'ray read a paper on Modern Household Embroideries, and had a piece of each kind to illustrate the many kinds of embroidery that are being done by the people of our city. Miss May O'ray also had several lovely pieces on exhibition, one of which had been made by a woman over 97 years of age. She also had a piece of eyelet work that had been her grandmother's. After the program Miss Sturm and Miss Brink passed each guest a collar to embroider, which had been stamped ready for work. After a lesson in this a lesson in crochet was given and each member learned a new and beautiful crochet pattern. Mrs. T. L. Wadley and her aunt, Mrs. M. C. Schaff of Los Angeles, Cal., were the guests.

#### They Will Be Workers.

The Queen Esther Circle of the First Methodist Episcopal church met at the home of Fay Herndon, on West First street, Saturday afternoon. The subject of the program was "The Frontier," and was as follows:

Devotions—Miss Barrows.  
Reading, "Another Chance"—Dorothy DeMotte.  
"Christmas in a Frontier Home"—Josephine Wilderman.  
Piano solo—Vijune Colden.  
"When the Girls Took Charge"—Greta Kemp.

During the business meeting plans were made for sending a Christmas box to the children of some home on the frontier. Vijune Colden, secretary of supplies will have charge of this. The mite boxes for the year were distributed by the mite box secretary.

Those present were Josephine Wilderman, Dorothy DeMotte, Helop Davis, Hazel Little, Ella Strader, Loma Bowers, Vijune Colden, Della Hook, Greta Kemp, Mabel Carnutt, Doris Pinnell, Mattie Clayton, Marjorie White, Ida Sabel, Mildred Bellows, Kathleen Wells, Miss Barrows and Fay Herndon. Miss Georgia Crawford was the guest of the afternoon. Queen Esther Circle was organized only two weeks ago.

#### The Wilson Wedding Gifts.

Poor Pickens and Mrs. Wilson! Over half of the senators in the United States senate are mad because they are not invited to Jessie's wedding, and they say they are not going to help buy the bride a present when they are not invited. But all the official people cannot be invited. There is not room. The Roosevelts tried to invite everybody to Alice's wedding, and 1,599 were asked. It is said, and those who attended still remember the awful crush and inconvenience and discomfort they went through. Fewer than fifty guests were present at the wedding of President Cleveland and Mrs. Grover Cleveland, and less than three hundred were asked to Nellie Grant's wedding. Jessie Wilson will be the first daughter of a Democratic president to wed in the White House since the days of Letitia Taylor, so this wedding is of more than usual interest in Democratic circles.

But Miss Genevieve Clark may be

## BREAKS A COLD IN A FEW HOURS—PAPE'S

Don't stay puffed-up! Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken will end grippe misery and break up a severe cold either in the head, chest, body or limbs. It promptly opens clogged-up nostrils and air passages; stops nasty discharge or nose running; relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

able to relieve this threatening social attitude of the senate toward the White House, by a luncheon she is to give Wednesday afternoon at the Congressional club for Miss Wilson, the bride-to-be, and the guests are to include all the girls of the house and senate, 175 of them. This will enable all the girls to meet Miss Wilson, although they will not get to see her at her wedding.

Miss Clark's luncheon will be the most interesting social event of the season, excepting the wedding itself, considering guests and all. Dorothy Harvey of New York, daughter of Colonel George Harvey, is coming to Washington this Tuesday evening for the luncheon. Miss Clark's father, Speaker Champ Clark, says this is to be Genevieve's "golden year." While she is not going to make her debut in the usual way (she is only 17) she is making her bow in the most propitious manner possible. She was first entrusted with buying a gift for the bride-elect for the house of representatives, who contributed over \$2,000 for it. The selection she made in New York, at Tiffany's, is a diamond pendant and chain. The pendant is pear-shaped. In the center is a canary diamond weighing six and one-half carats. It is surrounded by eighty-five smaller diamonds arranged in a pear shape, and is suspended from the neck chain in which smaller diamonds are set.

Gifts for the White House bride are pouring in, and Jessie will have to arrange for her presents elsewhere than in the White House if they continue to come in upon her the last days before the wedding as they have this week. The room set aside for the gifts already is pretty well filled and yet nearly half of those who have selected gifts must await the engraving by the jewelers.

The vase to be given by the French ambassador and Mme. Jerseraud took

the grand prize at the Paris exposition and cost about \$1,400.

A dinner set of more than a hundred pieces and costing \$5,000 is on exhibition at a Washington jeweler's and will later grace the table of the White House bride. It is in Georgian style, with heavy festoons of flowers and richly engraved. One of the hand-somest gifts is a vase of 14-karat gold, beautifully chased.

A terrapin set has a generous chafing dish of silver and several other pieces necessary to preparing the delicacy and all stand upon a heavy silver tray. The top of the chafing dish is ornamented with a terrapin, and the same creature, beautifully carved in ivory, forms the handle.

The tea set, which the senators probably will decide upon at once, has five pieces, a teapot, a hot water pot, waste bowl, sugar bowl and cream pitcher, the entire service being on a large silver tray.

Among the ambassadors who have sent gifts are the French, the German, the Italian, who sent four heavy silver candlesticks, and the Russian ambassador and Mme. Bakhteff, who sent an amber umbrella handle, richly jeweled. A tortoise shell and silver jewel case has been sent by the minister of Uruguay and Senora de Pena. The Misses de Pena, who are invited, will send separate gifts, and Senor don Alagars, charge d'affaires for Mexico, will follow the decision made by the bachelors of the corps who have been honored with an invitation and will send a large basket of flowers. The Bolivian minister and Senora de Neuderon will send flowers, and most of the other South and Central American diplomats will do likewise.

A gift that makes small show among the glistening array of large and beautiful things, but which has found a snug place in the heart of Miss Jessie Wilson, is a knitted bead purse sent to her by her little cousin, Elizabeth Wilson, daughter of Mr. and Mrs. Alfred Wilson. Elizabeth is only 4 years old and has labored steadily at her task that she might have the beads strung and the purse made before the day of

## NEW CONGRESS IS ORGANIZED

Huerta Says He is Ready to Resist Intervention.

### U. S. MAY START BLOCKADE

"We Will Protect Our Citizens and Not Wait for Washington to Act," Says Texas Governor as He Hears of Mexican Threats.

Mexico City, Nov. 18.—Organization of President Huerta's new congress was completed when enough senators were gathered to form a quorum in the upper house. There is nothing to indicate that the formal opening of congress next Thursday will be postponed. President Huerta talked informally to the members of his staff and a few personal friends regarding the possibilities of intervention by the United States. He intimated that he would be ready to resist such a step. The opinion is expressed in various circles here that the United States will soon start a blockade of Mexican ports. Rumor has it that President Wilson would be content with such an action and might even permit the embassy to remain in Mexico City until an open rupture occurred.

#### Won't Wait for Washington.

Austin, Tex., Nov. 18.—"In the event Mexicans start any trouble, we will protect our citizens and not wait for Washington to act," declared Governor O. B. Colquitt, after a conference with Adjutant General Hutchings. While no official statement was given out, it became known that the Texas national guard is in readiness to answer quickly any call that might be made.

The conference was the outcome of a threat by Mexicans to make Texas "answer to the whole Mexican people" unless mercy was shown Mexican ammunition smugglers charged with murder.

Governor Colquitt did not apprise Washington of the events. He said that in a recent outbreak along the Mexican border federal troops did not act until the Texas rangers had been called out.

### SUNSET STRIKE SETTLED

Company Will Meet Federated Committee of Four Unions.

Houston, Tex., Nov. 18.—The strike of operating employees of the Southern Pacific lines in Texas and Louisiana was ended when the railroad yielded to demands of the men to meet a federated committee of the four unions in the controversy. The men were ordered to resume work immediately.

Within thirty minutes after the announcement was made that the strike had been ended, wheels, which had been idle, began to turn in the Houston railroad yards.

During the strike mail piled up at many towns and supplies of merchandise ran low in towns which depended exclusively on the Southern Pacific for service.

Orders have been issued for a general resumption of train service on old schedules and a renewal of general activities on the Southern Pacific lines, effective at once.

### TEXTILE FIREMEN STRIKE

Thousands of Operatives Thrown Out of Work at Lawrence.

Lawrence, Mass., Nov. 18.—Between 3,000 and 4,000 operatives were thrown out of work when the strike of firemen in the textile mills caused the stoppage of some of the machinery because of the lack of power. According to union officials, 250 of the firemen have quit work. The union asks for an eight-hour day at the same pay now received for a twelve-hour day.

### INDIANS DEFY MARSHAL

Fifteen Hundred Navajos Rally to Support of Renegades.

Santa Fe, N. M., Nov. 18.—Fifteen hundred Navajo Indians have rallied in defense of renegades, and are reported in armed encampment on Beautiful mountain, thirty-five miles southwest of the Ship Rock agency, defying United States Marshal Hudspeth to take prisoner the renegades who are wanted on federal warrants, charging horse stealing, assault and bigamy.

Two troops of cavalry have been asked for by the marshal.

#### Socialist Howled Down by Militants.

Sheffield, Eng., Nov. 18.—A wild suffragette disturbance occurred here. Philip Snowden, Socialist member of parliament for Blackburn, attempted to address a "no conscription" meeting arranged by the labor party, but was howled down by suffragettes. Policemen took a hand and in the scrimmage were attacked by male sympathizers with the women. Some of the policemen were kicked and badly bruised. The meeting was abandoned.

#### Striker Stabbed to Death.

Victoria, Tex., Nov. 18.—Strikers returning to work on the Southern Pacific railroad here clashed with a strike breaking crew whose places they took on a train that had just arrived from Houston. George Gillig, a union engineer, was stabbed to death. The man charged with the stabbing gave his name as E. D. Quinn of Houston.

### Deafness Cannot Be Cured

Local applications, as they cannot reach the seat of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by HALL'S CATARRH CURE. Send for circular, free.

## \$950

Completely Equipped f.o.b. Toledo  
With electric starter and generator—\$1075

## Awarded "First Position" at the World's Greatest Automobile Show

THE extraordinary supremacy of the 1914 Overland has been officially recognized by the American Motor Car Manufacturers' Association.

This organization has awarded the Willys-Overland Company the position of honor at the great National 1914 Automobile Show which opens in the Grand Central Palace, New York City, on January 3d.

Do you know that the people of over 50 nations are wiring, writing and cabling to Toledo for Overlands?

Do you know that in response to their repeated requests and urgent demands we are shipping from 50 to 60 carloads a day—which means 200 automobiles every day in the week?

Do you know that the 1914 Overland is today the most sought after car of its type in the entire civilized world?

Even in Detroit, the automobile hub of the world, there are more Overlands being sold than any other car of this type.

The Overland has made, established and won for Toledo WITH ITS INDIVIDUAL PLANTS ALONE, the title of the second greatest automobile city in the world.

Detroit, alone, leads and yet the 1914 Overland is outselling, even in Detroit, every competing car.

The Overland factories average 50 shipments to the average maker's one. The Overland factories will build 50,000 cars for 1914. This is more cars than all the factories of France; three times as many as all the factories of Germany and far more than the combined factories of Italy, Holland, Russia and Sweden.

Has it ever occurred to you that there must be some substantial reason for such unparalleled success? There is, and here it is.

NO OTHER FACTORY IN THE WORLD CAN BUILD A CAR THE EQUAL OF THE 1914 OVERLAND FOR LESS THAN \$1200.

Our price—\$950.

That's the reason and the answer.

Now here are the facts.

The 1914 value is INCREASED but the 1914 price is DECREASED!

The motor is LARGER—but the price is LOWER.

The wheelbase is LONGER—but the price is SHORTER.

The tires are LARGER—but the price is LOWER.

The new car has ELECTRIC LIGHTS THROUGHOUT—even under the dash—but the price is LOWER.

It is magnificently finished in dark Brewster green, with running boards and wheels to match, trimmed in polished nickel and aluminum—but the price is LOWER.

Then there is a larger tonneau, a jeweled Stewart Speedometer—a larger steering wheel, and deeper upholstery—but the price is LOWER.

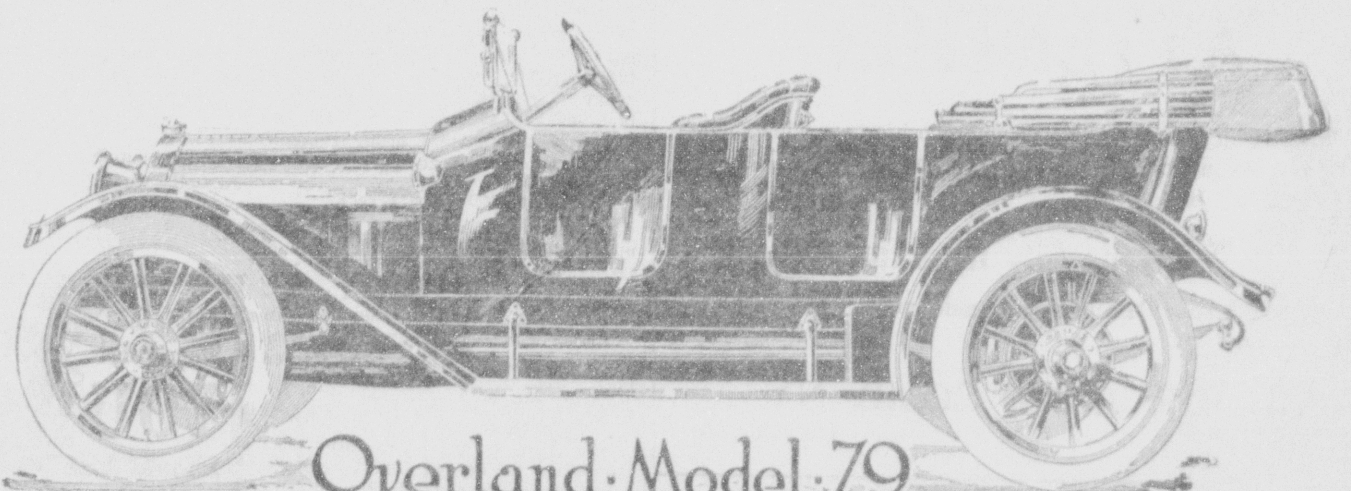

Here you have the world's record automobile value—at a record breaking price.

#### As He Got It.

A newly married lady was being interviewed by the reporter of the local paper just after the ceremony.

"And after the honeymoon where do you intend to settle down?" was his final question.

"At the old manse," said the bride, as she hurried away.

The reporter thought it sounded a bit familiar, but he decided to use it, so when it appeared in print the re-

port finished up: "After the honeymoon the happy couple intend to live at the old manse."

# A TIMELY WARNING to Housewives Beware of a Steel Range Peddler

**The Approach---** A sleek looking man, with a team of mules or horses attached to a wagon, may drive up to your house and attempt to unload and place in your kitchen a range. He may, if you allow him, proceed to explain in a very smooth manner, that this recently arrived range is made of steel and far superior to all other ranges on the market, and that for eighty dollars you may avail yourself of the opportunity of owning this very superior article in the stove line. If you do not happen to have the money in your hand you may take stove on approval, and, if satisfactory, pay for it when convenient; however, "as a mere formality," you and your husband should sign two innocent-looking pieces of paper.

**The Contract---** The range, as it stands alongside of the one that has done you such faithful service, appears to be a great improvement, but beware again of those two innocent-looking pieces of paper. Examine carefully on both sides and see if one does not read something like this:

## READS SOMETHING LIKE THIS

State of.....County. This memorandum of agreement made and entered into this.....A. D. 19..... between the.....of the first part, and.....of the second part, witnesseth: That the.....has this day sold to the parties of the second part one.....range, No.....and delivered the same in good order and in consideration of the same the parties of the second part have caused to be executed their promissory note, bearing even date herewith, for the sum of eighty dollars payable to the order of.....without discount or offset and due on the.....day of.....19..... Now be it understood that the.....Range Co. warrant said range to bake, boil and do all kinds of cooking in a good, workable manner, and agree to furnish free of charge any parts that may with ordinary use get out of repair sufficiently to injure the working of said range during the period of twelve months from date of this writing, provided that the above note is PAID WHEN DUE and presented, and that the parties of the second part furnish such fuel as is necessary to perfect operation. It is further agreed that the range is not transferable until paid for, and receipts, discounts, or offsets will not be accepted against the above note. This is the only agreement or stipulation recognized in the purchase and sale of said range, and no alteration of above conditions, or erasure by salesman, is authorized, or will be recognized by said company. (Signed, in duplicate),

**The Result---** Take it for granted that you are pleased with the appearance of the range and the terms of the purchase and that you and your husband sign the two pieces of paper. Where do you stand then? You have signed a promissory note for \$80, without discount or offset, with interest at six per cent from date if not paid when due or when presented. You have waived your rights to all exemptions allowed you by law. You have signed an iron-bound contract from which there is no escape in law. You do not legally own the range until the note is paid in full. The Company can take the range away without returning the part payment you have made. It is no legal excuse you did not know what you were signing. The Company can sue you upon note, recover judgment, and levy against your household goods.

## The Inducement

He may tell you that your old stove will be taken in part payment.  
He may tell you that what you are signing is only a receipt.  
He may tell you that his steel range is far superior to the range sold by your local dealer.  
He may tell you that he will take part of the price in his board and that he will allow a certain discount if monthly payments are made or that he will allow so much for every day you ride with him on his wagon.

**The Advice---** Don't trade with a total stranger. Don't sign any paper until you have tried the range for thirty days. Don't let him tap your old stove with a hammer to show how frail it is. Remember that all stoves will need repairs, and that the post office address of the peddler is subject to change without notice. Consult your lawyer before signing any paper offered you for signature by a peddler. It will be cheaper than consulting him after you have signed.

**The Conclusion---** Your home dealer is a responsible man, can sell you a better range at a lower price, can always be found to make his guarantee good, can furnish you repairs at any time and in short is the proper person now, as he always has been, from whom to purchase a range.

## SUFFRAGISTS AT WHITE HOUSE

Sixty-five From New Jersey Call Upon President.

## COME TO PLEAD FOR "CAUSE"

Want Executive to Mention It in Annual Message to Congress—Wilson Says Appointment of Woman Suffrage Committee Is Being Considered.

Washington, Nov. 18.—Sixty-five suffragists from New Jersey visited the executive offices at the White House and, though they had no previous engagement, were promptly received by President Wilson.

"We came to ask you to make suffrage a national question," Mrs. E. P. Felckert, head of the delegation, told the president, "and we would like you to include in your annual message support for the constitutional amendment now pending to grant to women the right to vote. We would like also if you would use your efforts to have the committee on rules in the house appoint a woman suffrage committee to push consideration of the amendment in the senate and on which we would like to see an early vote."

"I was just talking the other day," returned the president, "with some gentlemen from the house about the appointment of a committee and we have the matter under consideration."

"Oh, thank you," chorused the women.

The suffragists met with opposition when they visited the capitol and impetuous Senator Martine to champion their cause in the senate. The New Jersey senator, in reply to a direct question by one of the suffragists, declared that he did not favor the proposed enfranchisement of women and that he probably would vote against the proposed amendment if it should come to an early issue in congress.

After their reception by Senator Martine at the senate, they went to the house and of the capitol and presented petitions and arguments to New Jersey members of the house.
